

RUNNING TRACK SURFACE

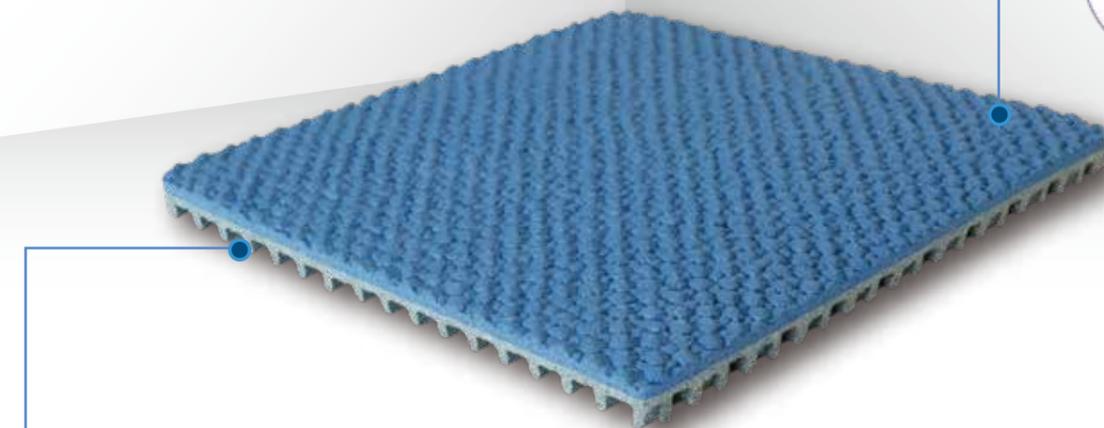

OSSTRAX-Elite

DESIGNED FOR ATHLETICS, SPIKE RESISTANCE TRACK

SURFACE LAYER: Textured vulcanized rubber

- ✔ -Uniform texture array designed for stable friction in any direction during competition.
- ✔ -Maintains performance and durability even under long-term outdoor UV exposure.

BASE LAYER: Shock-absorbing vulcanized rubber

- ✔ -Cushioning honeycomb matrix structure for balanced support
- ✔ -Provides 25%–40% shock absorption to reduce stress on runners' legs

SPECIFICATION

THICKNESS	8mm, 10mm, 13.5mm	
ROLL WIDTH	91cm to 140cm	3' to 4'7"
ROLL LENGTH	6M to 15M	19'8" to 49'2.6"

OSSTRAX-ELITE

PERFORMANCE

FAST. STABLE . OUTSTANDING

OUTSTANDING DURABILITY

Vulcanized rubber makes a strong material even stronger

EMBOSSED TEXTURE SURFACES

Granule-free, uniform texture

EASY TO MAINTAIN

Non-porous surface
No coating, no granule degradation
